

WATSONVILLE WETLANDS WATCH

Request for Proposal—Consultant for Technological Design and Networking of Small Office

Watsonville Wetlands Watch, a non-profit, located in Watsonville, is looking for a company/consultant with the capability of advising, designing, and supporting a technological solution for seven employees to work both at home, in the office, and in the field.

Watsonville Wetlands Watch is seeking an experienced consulting company to advise on the design of a system and purchase of laptop computers, cell phones, and other hardware and software necessary to network and improve communication among seven employees who work at home, in a small office, and out in the field. We will also need on-call support once the system is set up.

This networked system will either feed into the existing system run through Pajaro Valley Unified School District or will be autonomous to that system.

Please send bids to the contact information below.
